

Total Dental Care Pvt Ltd launches ODONTO Clear Aligners for dentists to provide Invisible Braces to patients.

ODONTO Clear Aligners or Invisible Braces are made using 3D Design & 3D Printing technology and are customised for patients. ODONTO provides clear aligners and treatment planning support & training to dentists with its team of orthodontists.

Mumbai, Maharashtra Jan 24, 2022 (Issuewire.com) - Total Dental Care Private Limited has launched ODONTO Professional Clear Aligners to provide clear aligners to dentists and dental professionals who in turn provide services or clear aligners or invisible braces to their patients. ODONTO Clear Aligners or Invisible Braces are planned by Orthodontists with an MDS degree in the domain of orthodontics or braces treatment.

The company has its own 3D Digital Dental Design Center in Goregaon Mumbai to make customised treatment plans for the dentists who need ODONTO Clear Aligners for their patients. Total Dental Care Private Limited is currently providing clear aligners to more than 2300 dentists across India.

All disclosures and details of the company and ODONTO Clear Aligners are published on its website www.odontoaligners.in.

Speaking on the day of the launch of the ODONTO Clear Aligners, Vikram Vora, CEO of Total Dental Care Private Limited said "We have built the ODONTO system to provide the best clear aligner solutions to dentists in India so that they can provide affordable invisible braces to their patients. We are proud to be a company making the aligners in India. Our facilities have been provided ISO 13485 process certification to ensure the quality of our processes."
