

Traci R. Fritz, MD, a Family Physician with The Doctor's Office

Get to know Family Physician Dr. Traci R. Fritz, who serves patients in Brookfield, Wisconsin.

New York City, New York Jan 14, 2022 ([Issuewire.com](https://www.issuewire.com)) - Dr. Fritz has been practicing medicine in Wisconsin since 2015, currently working at The Doctor's Office in Brookfield. Her passion for helping those suffering mental health and addiction problems has been a special interest. She also enjoys treating teenagers to retirees, business execs, and full-time mothers.

Over the years, she has been seeing patients in their homes. Schedule permitting, she is comfortable

bringing the comfort of an IV to an ill patient at home. For busy workers who cannot make it into the clinic during standard hours, flexible hours are available on a case-by-case basis.

The Doctor's Office in Brookfield is a walk-in clinic that provides quality health care at a fair price with services in primary care, urgent care, outpatient addiction medicine, physical therapy, lab work, women's health, family practice, well-child checks, DOT physicals, and select medicine dispensed.

Earning her medical degree from the University of Texas Medical Branch Galveston School of Medicine, Dr. Fritz spent several years training in the specialties of radiology and anesthesia. She missed patient contact and is much happier working in family practice and urgent care.

Her medical experience began in addiction research 20 years ago. She has worked with experts in the newly developing field and is comfortable with supervised alternative detoxification regimens. She enjoys educating patients on their options from diagnosis to treatment. Acute trauma, incision, and drainage, sutures are especially welcomed.

Family medicine is a medical specialty devoted to comprehensive health care for people of all ages. The specialist is called a family physician or family doctor. A family physician is often the first person a patient sees when seeking healthcare services. They examine and treat patients with a wide range of conditions and refer those with serious ailments to a specialist or appropriate facility.

On a more personal note, Dr. Fritz attributes her success to running track starting in 7th grade. "You put in the effort to get the results. Also later on in semi-pro club rugby, I learned how important it is to conserve energy so that when it's time to score, I can sprint my heart out" she stated.

Outside of the office, she enjoys breakdancing, roller skating, working out, lifting weights, auto mechanics, and track racing. Her favorite place to vacation is South Beach in Miami, Florida.
