

Trader Boys Has the Largest Selection of Office Furniture in Los Angeles

Los Angeles, California Jan 15, 2022 ([IssueWire.com](https://www.issuewire.com)) - Since 1949, [Trader Boys](#) has stood the test of time to provide quality furniture to your office. What started as a neighborhood used furniture and appliance store from the father who had a vision, has turned into something much bigger.

The family tradition continues with the third generation holding down the fort to give customers that classic feel of yesteryear, but with a modern twist of showcasing the latest trends in new office furniture. They stay updated with the times by attending office furniture conventions and visiting manufacturer's office furniture factories.

From space planning, design services, and white-glove delivery and installation, they involve themselves every step of the way to help you get the best product and service possible. It's no wonder they've lasted 73 years and sustained their status as a generational brand. They've evolved from a buy, sell, and trade company to something timeless. Here are some things to check out at Trader Boys.

Space Planning

Trader Boys are experts in space management. When space planning, they consider different things:

- Using space efficiently
- Lighting
- Storage
- Requirements for workers
- Building codes and regulations
- Location of electricity
- Privacy
- Bathrooms, hallways, and the main entrance

A limitless selection of desks in laminate, wood, steel, and standing height, are available in custom sizes to fit your space. Not to mention hundreds of options in executive and ergonomic chairs, in every fabric and color, conference tables, fireproof files, and more.

For collaborative areas, standing-height desks are popular. Teams might need to place their monitors next to one another during group projects to compare notes. Trader Boys creates a space that encourages team effort.

Businesses need options and examples to help create that vision they want for their company. Whether a start-up or multi-level buildout, no job is too big or too small for Trader Boys to take on.

White-Glove Delivery

Trader Boys services, like white-glove delivery and installation, are efficient and quick. Businesses lacking the resources and time management to break down their old office furniture then deliver it to the dump, rely on Trader Boys for such services. If disruptions to business meetings are a concern, after-hour deliveries are a popular option. Additionally, their fully insured installation team brings peace of mind.
