

Truck Driver Financing Without Using Your Social Security Number

Obtain Business Credit Using Your EIN Number Only

New York City, New York Jan 2, 2022 (Issuewire.com) - Finance experts are elated as The Patriot Group (thepatriotgrouphq.com) has finally rolled out their much anticipated Business Finance Suite for Truck Drivers! The Patriot Group has released a first of its kind cash and credit access system which provides easy access to trucking companies financing options of all kinds for their businesses using only their EIN Numbers!

The Trucking Finance Suite has thousands of financing sources and more access to money than any other stand-alone system in the world. The finance suite also provides the access to the largest supply of financial products that is available today. "Access to money has always been one of the biggest challenges a owner operator faces," said Jay Sawyer, Senior Advisor. "Through the finance suite truck drivers can quickly access the cash and credit they need to grow their business." "We work with Shaggy's Consulting and Training Group nationwide and we see drivers reaching success and then comes the need for working capital" "The Trucking Finance Suite provides unprecedented access to money for trucking companies, LLC's, Sub S Corporations, brokers, you name it!" Virtually every type of known legitimate financing source is available through the trucking finance suite. Business Credit is one of many funding options available. The Trucking Finance Suite provides access to the largest database of vendor and revolving account sources who offer business credit, all with no personal guarantee required. (No SS# Required)

This means owner operators can access credit for their business without the personal liability of a personal guarantee. Plus business credit is available with no personal credit check. (NO Social Security Number Required) So, even business owners hit hard by the change in economy will still qualify. "Our clients can easily be approved for well over \$50,000 in business credit within their first 6 months using

the trucking finance suite. And this credit is with major merchants and banks small trucking companies frequently use including companies such as Office Depot, Dell, and Amazon,” says James Kreft of The Patriot Group. Plus business credit is only one of many financing options available.

SBA loans including SBA 7a and 504 loans are available as well. Factoring loans, equipment loans, credit lines, merchant cash advances, 401k financing, securities-based lines of credit, and many more financing options are all available through the Trucking Finance Suite. “Now truck drivers have access to all real cash and credit sources for their business in one place,” says Kreft of The Patriot Group

The Patriot Group also helps business owners with the initial steps of setting up their business and filing their trucking taxes to insure they are approved for financing. Truck drivers can even acquire an excellent business credit score right through the finance suite. And, truckers can secure new financing with one-click access and easy online approvals.

Plus one of the main benefits of the truckers finance suite is concierge coaching which is provided by a certified Trucking Advisor and Finance Officer. We hold your hand through the entire business credit process! The Patriot Group has coaches who help truck drivers access the cash and credit they need to grow their businesses. (repairs, maintenance, new equipment)

These advisors commonly have two decades or more experience in helping business owners obtain capital and build credit. And, this concierge coaching includes helping truck drivers all the way through the approval process to insure they get approved and quickly receive their money. The Trucking Finance Suite has finally given business owners access to the funds they need to grow and expand their businesses.
