

Veeraco Colourants Private Limited Manufactures Pigment Green 7

Veeraco Colourants Private Limited manufactures Phthalocyanine Pigment Green 7

Mass Tone

Pigment Green 7

Mumbai, Maharashtra Jan 28, 2022 ([Issuewire.com](https://www.issuewire.com)) - Veeraco Colourants Private Limited's history dates back to 1952. It began as a small dye and dye intermediate trading company in India, attempting to make a name for itself in an industry dominated by large and multinational corporations at the time.

Phthalocyanine Pigment Green 7

A phthalocyanine pigment is one in which the majority of the hydrogen atoms have been supplemented

with chlorine. The pigment phthalocyanine is a crystallization result of phthalic anhydride, urea, and cuprous chloride. Copper Phthalocyanine Green has the following typical structure:

The chlorine content of Phthalocyanine Green 7 Pigment ranges between 46 and 48 percent.

Grades of Phthalocyanine Green Pigment are available based on the chlorine content;

- with low chlorine content, the grade is bluish-green, and
- with high chlorine content, the grade is yellowish-green.

The molecules of phthalocyanine pigment green are extremely stable. They can withstand alkali, acids, solvents, heat, and ultraviolet radiation. Phthalocyanine Green Pigments have exceptional all-around fastness properties in a wide range of media.

Application of Phthalocyanine pigment 7:

- Plastics industries imbibe 36% of all Pigment Green 7 produced globally.
- Paints and Inks employed 30% and 24% of the Green Pigment, respectively.
- The residual 10% of the pigment is consumed by textiles and other applications.

About the Company

Veeraco Colourants Private Limited is a [top manufacturer of pigments in India](#). The products are prevalently used for a wide assortment of purposes in various industries. Using cutting-edge technologies in our methods has always been the predominant goal to escalate the quality of pigments for our customers.

[Veeraco Colourants Private Limited](#) is the sovereign remedy for pigment dispersions or powder demands at a minimal price.

Our clients rely on us for precise inspection, quality products, and on-time delivery. We pledge to adhere to global standards, respect environmental legislation, and lend assistance.
