

Video Jeeves-Leading US Based Video Animation Company in the USA

Fremont, California Jan 14, 2022 ([IssueWire.com](https://www.issuewire.com)) - Video Jeeves is a highly ranked video animation company in the USA, famous for creating attractive and creative videos for numerous digital platforms. The agency has worked with several companies worldwide to carry its mission statement to its target audiences. Our vision statement is that our experts should always excel in their competitive environment. Additionally, our agency consists of a team of specialized animators who produce innovative and well-organized animated videos to meet the standards of respective brands.

“On the seventh anniversary, we want to thank our clients for their constant love and support. As a form of appreciation, we will be offering 50% off on the different types of animated video services.” Says Mike Rudolph, the CEO.

Success And the Popularity of Video Animations in Numbers

Viewers hold 90% of a message when they watch a video, compared with 10% when reading the news in a text form. This clears up why animated videos are essential and in demand these days.

60% of advertisers now use explainer videos to sell their goods and services. So, it states that incorporating videos are ten times better as it is likely to be found on web crawlers.

Also, the expected time someone stays on the site increases from 8 seconds to 5 minutes if there is a video.

90% of buyers want to watch more videos of different companies, displaying the fame of video marketing companies and how strong they are at keeping their clients involved and loyal.

We offer the following services:

- 2D Animation
- 3D Animation
- Whiteboard Animation
- Motion Graphics
- Stock Animation

2D Video Animation

Our team of experienced 2D animators provides animated videos that make a perfect brand voice. Powering our 2D video animation services, you can convey your message by collaborating and communicating video made by professionals at an affordable rate.

3D Video Animation

We help our clients to carry their message to their desired target audience with our impeccable 3D video animated videos. These videos are ideal for entertainment and informational purpose. That's why we use leading-edge tools, applications, and visuals to give exclusive 3D video service to our customers.

Whiteboard Animation

This type of animated video is the best way to teach the audience. At Video Jeeves, our skilled animators create interactive whiteboard explainer videos for different companies, institutes, and organizations. Therefore, these videos are used for product intros, services demonstrations, storytelling, and much more.

Motion Graphics

We provide an attractive alternative of images and infographics: Motion Graphics. With the help of photos, videos and animations, we make videos that help achieve augmented conversions. Additionally, these videos can create with the audience on a different level and are ideal for marketing your product.
