

What Is The Process of Setup Arlo Camera?

Haltom City, Texas Jan 11, 2022 ([Issuewire.com](http://www.Issuewire.com)) - Arlo cameras are the best cameras for some of the best in the business. There are some easy steps that you need to follow for the [Setup Arlo Camera](#).

Let us see what are those steps:

Download the Arlo app:

The Arlo app will guide you through the process of **Arlo Setup** and is also going to allow you to adjust to the camera settings. Well, you cannot install the camera without the app.

When you download the app, you need to create an account and then start adding the first camera by choosing the model from the list. Then you need to proceed with the [Arlo login](#).

Turn on the camera app:

When you start with the process of the **Setup Arlo Camera**, you need to follow the instructions for installing the battery in the camera housing.

After inserting the battery, close up the camera's case and check the LED on the front. If you see the blue light, then move on to the next step.

Connect the Arlo camera to Wi-Fi:

When the camera has the power, follow the Arlo app instructions for making a connection to the Wi-Fi network. Enter the name as well as the password for the wireless network and then the app will create a QR code.

Wait for the camera to chime after scanning the code. You are also going to need 2.4 GHz instead of 5 GHz.

Place your camera:

Now you need to place your camera and that 6 to 7 feet above the ground. This is the best mounting position for the camera to get the image.

You can use a magnetic mount with the Arlo Pro and the Ultra.

If you are still not able to [Setup Arlo Camera](#), then get in touch with our experts. They will provide you with the best solutions!
