

4 Benefits of Doors with Double Glazing in Perth

This Press Release is written to inform the readers about the various benefits of using doors with double glazing in Perth.

Perth, Western Australia Feb 9, 2022 ([Issuewire.com](https://www.issuewire.com)) - From making your indoors quieter to helping you save a significant sum of cash, here are the primary advantages of installing ClimateFrame [double glazing in Perth](#).

- **Improve Energy Efficiency with an Insulated Glass Door**uPVC Double glazing helps to minimise the rate of heat transfer between the indoors and outdoors, helping you maintain a comfortable temperature inside your property year-round, regardless of the weather.
- **Bolster Fire Safety with a uPVC Double Glazed Door Frame**uPVC double glazed windows and doors when constructed in the appropriate arrangement complies with a BAL40 fire rating. Fire resistance is achieved when combining uPVC frames with specific glass and flywire specifications.
- **Reduce Condensation and the Risk of Water Damage**if you'd rather minimize the risk of water damage adversely affecting your property, then now is the time to upgrade to double glazed windows

and doors.

● **Minimise Noise Pollution** Double glazing adds an extra layer of soundproofing to your property, which you'll appreciate if you live in a built-up area or next to the main road.

At ClimateFrame, they supply and install some of the highest quality double glazed windows in Australia. Learn more about **double-glazed doors** and windows by visiting www.climateframe.com.au.

About ClimateFrame

ClimateFrame Double Glazing is a privately owned Western Australian company that manufactures, supplies, and installs double glazed windows in the Perth region.

The business structure involves the Hodgetts family – Tony Hodgetts (Managing Director) and Jake Hodgetts (Operations Manager) manage all aspects of ClimateFrame. They have a state-of-the-art manufacturing facility and only use KOMMERLING profiles. Having control of the manufacturing process allows them to offer their customers a 4-5 WEEK delivery on frames from confirmation of order.

They have a highly experienced team that offers exceptional service and quality products at a competitive price. Learn more by visiting www.climateframe.com.au.
