

A Day With A Mission To Empower Girl Child - Social Welfare Event by SSSI Tutoring Services

Noida, Uttar Pradesh Feb 1, 2022 ([Issuewire.com](https://www.issuewire.com)) - Recently, some of the executives visited **Little Seeds NGO** three days back. A social welfare event by **SSSI** was conducted on the **topic of Social etiquette**, where we helped the students learn how to behave and conduct themselves in **multiple environments**. The session began at **12.30 pm** with an ice breaker activity to boost the students. Our highly experienced **online tutor** conducted an online session on "**Democracy and Diversity**". After the online session, students were instructed to watch the episode of *Malgudi Days* by **R. K Narayan**. We conducted a questionnaire round after the **online session**.

The **co-founder of the Little Seeds NGO** said, "It was so good to see that the organizations like SSSI are taking the initiative to **educate the girl child**. As pandemic makes it difficult for these students to go to school, the **online sessions** can assist them in continuing their learning without any obstacle. It was amazing how the students interacted with the team members on [social welfare event](#) topics and shared their perspectives. The best part of the whole session is that the team employs audio and visual modes to help the students connect the dots and develop a better understanding of the topic. Moreover, I am also working on the **women empowerment project** where we assist the women in empowering themselves by learning the art of sewing. The organization is working on the same objective of **educating and empowering organizations**. I believe such interactive sessions should be

organized monthly to develop the disprivileged **group of students**".

The **founder of the SSSI organization said**, " I believe in offering **free education to the girl child**, and unprivileged group by connecting with the NGOs to empower the students who have this **curiosity to learn** more and dream to achieve success in their **life**. The NGO visit by our executives as part of our initiative to provide personalized learning by empowering individuals to lay strong foundations in the fundamentals. For that reason, I advised my executives to conduct the session with both audio and visual modes. Moreover, as we all know, that pandemic hampered the **education** of the **students worldwide**. I took a step to elevate the progress of human civilization through cognitive refinement of the student community by helping them connect, interact, and engage with the **world's best online educators**. With SSSi, my objective is to create an inclusive environment for students and **educate every child** to the highest levels of **academic achievement**".

An **executive from the SSSI organization said**, " As the organizer of the session, it was a wonderful experience to be part of such a **great initiative**. It will help our upcoming generation prepare themselves for the professional roles they want to be part of in the future. At the end of the session, I had a conversation with one of the students. She told me that she loved the session and would love to be part of such sessions in the future. Especially how the session was conducted, as she wanted to **learn more about computers** in the session. Moreover, she told me how the session added value in her **life concerning B.R Ambedkar** and his contributions to **caste discrimination**."

Hence, the visit was part of our **Teach India Movement**, in which we focused upon the **girl child education and students** regardless of **race, creed, caste, wealth, and poverty**. Furthermore, we will plan more such visits as a part of **social welfare events by SSSI** through [SSSi online tutoring services](https://www.sssi.in).
