Skin-N-Bone\$ (LAMONTI F.N. COE)

Indianapolis, Indiana Feb 8, 2022 ([IssueWire.com](https://www.issuewire.com)) - With viral compositions released throughout his career and more under works to be released in the coming weeks, rising rap singing artist Skin-N-Bone\$ is all set to emerge as one of the top artists of this era and genre.

The up-and-coming artist Skin-N-Bone\$ is a massive force to be recognized in the world of music. With years of experience, drafting rnb mumble style with rap intricately included. Skin-N-Bone\$ Singing tunes

while possessing an inner sense of excellence in various musical variables, the talented artist really knows how to play around with different sounds, vibes and come up with something unique whether on a high end or low. One of the Skin-N-Bone\$ recent releases of the past couple of years that starting to pick up steam with his brand of mumble rap/r&b is the Farley new maxi extended play album titled

[The Plug 0 EP \[Enter the Guiding Light\] \(Prequel\)](#)

In some ways, these works of indie musical genius come off like an indirect musical bio. Dropped near the end of 2019 on November 26th and with the release of this album, the dedicated mumble rap/r&b artist has masterminded for his matured and vintage yet wavey sound to get out there in the world once again as he did in 2008 with E.p. Release Belly and then his modern Proto Mumble Rap & Rnb Mixtape "Silkey" Rock + RnB in 2011 gaining much viral as well as international praise! These releases would then build an early cult-based, rap singing following. Bringing organically grown fans towards more and more of his music. While now already being internationally re-known with a lot of worldwide appeals, Skin-N-Bone\$ has been compelling more music enthusiasts towards his vast array of sometimes trippy yet drippy drills (as he has coined it) – rap singing soul music as he doesn't allude to stopping. He desires more and more people to bask and admire the focus of his original "Basement Rap-Rnb, G-Punk" soundscapes, as a result, he has come out on the top amongst other artists of the same genre that wasn't all that really recognized when he first began to break thru as one of the earliest Indie Mumble + Rap singers around. All of the Skin-N-Bone\$ music is available on most major music streaming platforms including Apple Music, Sound Cloud, Datpiff, Amazon, and more. Some of these songs include "Blaze On U", "Ladiez Musik Factory", "Bulskit", "Voodoo", "Everybody", "Paradise_X", "M-K Soullflamez", Skin-N-Bone\$ N' Ya Trunk: Musik to T.H.U.G. in Harmony 2 Vol.1 (Limited Version Edition) [Explicit], The Renegade Life Chronicles series

and more. Some of these recordings getting uploaded on Sound Cloud as far as 3 years back, these songs are a glimpse of the old sound of Skin-N-Bone\$. The artist has continued to master and mature his sounds and perhaps aspects of his perspective through the years and no doubt learning a lot through his experiences and journey, evolving his sound into something that is liked by the newer generation. His album 'The Plug 0 EP' [Enter the Guiding Light] (Prequel), consisting of a total of 10 original tracks, is living proof of this developed and ongoing sound creating sensational yet thought-provoking vibes in proclaimed Last Consigliere flavor.

Skin-N-Bone\$ was initially at one point in his musical lifestyle a part of an indie band where he stuck to one musical style, eventually evolving in different eras of rock genres and sounds pretty quickly. What makes him extremely unique as an artist is his ability to merge different styles into something completely original and creative of his own. This approach enables him to find multiple directions and stay true to his path. Skin-N-Bone\$'s main sources of motivation are the punk, art, and charitable corporate communities, whereas the drives his inspiration from Mysticism, Science, and The Lightwork movement. Skin-N-Bone\$ is looking forward to continuing his musical tasks; moreover, mission statement to continue evolving more as an artist, man, and dad expanding his horizons each and every day "thuggin it out with harmony".
