

Angie Kesterson Gabel, RN, a Registered Nurse with Kindred Healthcare

Get to know Registered Nurse, Angie Kesterson Gabel, who serves patients in Avon Lake, Ohio.

New York City, New York Feb 15, 2022 ([Issuewire.com](https://www.issuewire.com)) - Angie is a registered nurse currently affiliated with Kindred Healthcare in Avon Lake, Ohio. She specializes in medical surgical nursing, operating room nursing, and infection control.

Kindred Healthcare provides care and support in the most appropriate clinical setting for those recovering from illness or injury. Whether patients are receiving care in one of their long-term acute care hospitals, their inpatient rehabilitation, or behavioral health hospitals, Kindred ensures their recovery to the fullest extent possible.

Beginning her professional pursuits by earning an Associate's Degree in Nursing from Lorain County Community College, Angie went on to further her education by graduating with her Bachelor of Applied Science degree from Western Governors University in 2020.

In order to remain up to date with the latest advancements in her field, she is a professional member of The Sigma Theta Tau International Honor Society of Nursing.

On a more personal note, Angie attributes her success to always wanting to be a nurse. She is a single mom to four boys and went to school later in life to become a nurse.

A Registered Nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province, or similar licensing body to obtain a nursing license. RNs fulfill a variety of job duties. In addition to their primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include leadership, research, performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.
