

Arkay Zero Proof Vodka is not produced in Russia

Arkay Zero Proof Vodka is not produced In Russia and will never be.

Melbourne, Florida Feb 28, 2022 ([IssueWire.com](http://www.IssueWire.com)) - Arkay Zero Proof Vodka is not produced in Russia and will never be.

Arkay Vodka Alcohol-Free Spirits

The Arkay version of Vodka is not a Russian Vodka, does not contain any distilled products. Our master mixologist creates Vodka flavors by mixing Vodka aromas with other flavors and our W.A.R.M. molecule. All flavors combined with the W.A.R.M. molecule emulate the flavors, aroma, and sensation of Vodka. (Production of our Vodka flavored drink is not in Russia)

ARKAY VODKA REPLACEMENT FEELS AND TASTES EXACTLY LIKE VODKA IT HAS THE SAME BURN AND KICK IN THE MOUTH THAN REAL VODKA

Arkay has a small molecule placed inside the drink. In contact with the tongue, the drink sends stimuli to the brain, the illusion operates, and the mucous membranes of smell and taste saturate and make the consumer believe that he is drinking alcohol.

But beware, no drunkenness, no adverse effect, this is the advantage of Arkay. It reproduces the taste of the liquor but none of the negative effects of the alcohol.

Arkay non-alcoholic Vodka is for EVERYONE and can be enjoyed ANYTIME, ANYWHERE

Since it can be consumed all night long without any intoxicating effects – it contains 0% Alcohol, 0% Calories, 0% Carbs 0% Sugar, 0% sweetener, Gluten-free, Friendly vegan.

At cocktail parties, designated drivers, teetotalers, and pregnant women often are limited to drinking soda, water, or juice – options that can become incredibly monotonous. A new beverage in the market is about to shake things up and open a world of possibilities, giving everyone a chance to enjoy all the flavors of whisky with none of the alcohol, calories, sugar, or sodium.

Straight-up, “on-the-rocks” or with your favorite mixer, anyway, is a good way to ARKAY!

Why drink Arkay Vodka?

This Vodka alcohol replacement is a unique and innovative drink for consumers world-wide

looking for an alcohol-free liquor alternative with the placebo effect.

ARKAY ALCOHOL REPLACEMENT FEELS AND TASTES EXACTLY LIKE LIQUOR IT HAS THE SAME BURN AND KICK IN THE MOUTH THAN REAL LIQUOR

Drinking Arkay relaxes the mind and body and induces a sense of calm and euphoria making it ideal to use for social relaxation. Drinking Arkay can also be used to reduce stress, mild anxiety, and muscle tension or to help overcome occasional sleeplessness.

There are many reasons to drink Arkay. Our customers tell us they like to drink Arkay as:

- An alternative to alcohol for social relaxation
- A way to alleviate stress and keep calm
- A drug-free means of reducing temporary anxiety
- A way to lift their mood or deal with worries

How does ArKay Vodka work?

The euphoric effects of Arkay are due to a combination of the main active ingredients in the formula (known as W.A.R.M)

Arkay has a small molecule placed inside the drink. In contact with the tongue, the drink sends stimuli to the brain, the illusion operates, and the mucous membranes of smell and taste saturate and make the consumer believe that he is drinking alcohol

Side effects and safety of drinking ArKay Vodka

No hangovers

One of the big benefits of drinking Arkay instead of alcohol is that it will not overly dehydrate your body or fill it with the toxins that lead to headaches and hangovers. While Arkay won't impair your cognitive abilities and mental clarity in the same way that alcohol does.

Non-addictive

Arkay has been proven to be non-addictive. Unlike other substances, drinking Arkay is not habit forming and you will not build up a tolerance to the effects of drinking Arkay causing you to need to drink more each time. In fact, the exact opposite has been shown, that the beneficial effects of a drink of Arkay can be felt even more when it is drunk on subsequent occasions. This is because of the distinctive way that Arkay affects the brain.

Arkay Culture

Over the six years, the popularity of Arkay has been increasing worldwide as more and more people discover the benefits of drinking Arkay can bring. Numerous Arkay bars and alcohol free liquor shops will open soon in the U.S and worldwide.

SOME TIPS ON HOW TO DRINK ARKAY VODKA

Some of our zero proof spirits are very strong and you may be surprised by the strength of the drink.

When drinking Arkay for the first time you should try it the same way as if you drink a cocktail by mixing Arkay with cola or sparkling water over ice, then wait a few seconds for the bubbles to settle down before you drink.

Welcome to the Fantastic, Alcohol-Free Liquor's World

ARKAY

wine culture was growing, and it was still a foregone conclusion that everyone was drinking alcohol. This was when [Reynald Grattagliano](#) introduced Arkay, the first-ever alcohol-free spirit alternative to the world. In the US his product was met with ridicule and resistance. Why? Because it had never been considered, "Alcohol-Free Vodka ?" No one would have thought that could be possible and new ideas are always met with resistance.
