New York, NY, February 9th, 2022 — ArtifactNFT, The world's first physical NFT Keychain, will be demonstrated during NY Fashion Week .

**Malta, New York Feb 24, 2022 ([Issuewire.com](https://www.issuewire.com))** - ArtifactNFT is hosting a New York Fashion Week show to allow all NFT holders first hand experience of its innovative product. Consistent with their ethos of merging virtual worlds with the physical world, guests at New York fashion week will be the first to gain access to their release. Guests at this season's SFWRUNWAY New York Fashion Week show who have hopped into the NFT craze and are NFT owners will get to experience THE WORLD'S FIRST NFT KEYCHAIN. The ArtifactNFT team will curate an exhibition that allows attendees to display their favorite artwork in a unique way! Sign up via their website to be the first to know about their upcoming launch of the world's first NFT keychain.

As the world's first digital keychain accessory, ArtifactNFT gives users the ability to display digital artwork as a wearable item. These are specifically used to display NFTs from your online digital galleries. Connect via WiFi to your digital art galleries and display your artwork using this fashion

accessory. Artifact Technology is merging digital artwork with fashion. Artifact Technology aims to bring [NFTs](#) into the real world through the first-ever physical NFT keychain. Working alongside the Artifact Marketplace App, the keychain will be able to display and advertise NFT projects on a little screen.

*"We are excited to support such an innovative project while providing our designers the resources to explore fashion in the digital age" said Naomi Alabi, founder of Street Society and SFWRUNWAY.*

The Artifact NFT keychain is able to project JPEG, GIF, and MP4 files and has a secure Web3 wallet verification process, and is also password-protected so users can be assured of the safety of their prized purchases. Each keychain is also Wi-Fi and Bluetooth-enabled and offers secure access to different NFT marketplaces such as OpenSea and Rarible.
