

Aurora Burluc, DDS, a Dentist with DTC Dental Care

Get to know Dentist Dr. Aurora Burluc, who serves patients in Greenwood Village, Colorado.

New York City, New York Feb 2, 2022 ([Issuewire.com](https://www.issuewire.com)) - A top professional in the field of dentistry, Dr. Burluc sees patients at her private practice - DTC Dental Care - in Greenwood Village, Colorado. She has been providing the highest-quality, most gentle family dental care for more than 15 years. Her

patients rave about her friendly personality, gentleness, and the fact that she takes her time with everyone to answer all their questions.

The doctor loves getting to know her patients on a personal level, helping them improve their smiles, boost their confidence, and get healthier teeth. She is very aware that many patients have had bad past experiences with dentists and are understandably hesitant when it comes to seeing a dentist. She prides herself on her gentleness and her ability to win the trust of her patients.

Unlike many dentists who specialize in one area, Dr. Burluc really loves the variety of general dentistry. She'd rather get to know her patients better and provide all the care they need rather than see patients who need something very specific just once. Her patients love her for this because they can get to know her and stay with her after discovering how comfortable and gentle she is.

Educated in the United States, she received her Doctorate of Dental Surgery from the University of Colorado's state-of-the-art School of Dental Medicine. She is an active member of the American Dental Association, Colorado Dental Association, Metropolitan Denver Dental Society, and the Prosthodontic Society. She is as committed to continuing education as she is to her patients.

When it comes to more complex care for her patients, Dr. Burluc has an extremely strong network of the best providers in the Denver area. She refers her patients who need complex care out to only the most trusted providers in the area. By working closely with her network of trusted specialists, she's able to provide continuity of care for all her patients.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions, and perform other duties to ensure that the teeth and mouth are healthy.

Happily married, Dr. Burluc loves spending time with her husband and two amazing sons, taking in Colorado's beautiful summer weather, hiking through the mountains, and reading whenever she gets the chance.
