

## Biction NFT - India's First NFT Marketplace powered by Bitcoin

**Chennai, Tamil Nadu Feb 8, 2022 ([Issuewire.com](https://www.issuewire.com))** - Biction NFT is a web3.0 company to launch NFT Marketplace without seed funding. Biction NFT, (Non-Fungible token) NFT Marketplace will allow creators to mint NFTs on Bitcoin as well as other popular chains like "Ethereum and Polygon". NFT minting is powered by Stacks chain. Stacks connects to Bitcoin, enabling you to build apps, smart contracts, and digital assets that are integrated with Bitcoin's security, capital, and network. NFTs can

be minted for all the popular media formats. The team behind Biction NFT is currently working on Metaverse gallery to provide an interactive user experience for the buyers and holders. Every NFT minted inside Biction NFT will be displayed in our Biction NFT Gallery, where users can view, interact and purchase inside our gallery. The second phase will be launched in a couple of months as soon as the Marketplace is launched. Biction NFT is a multi-chain NFT Marketplace that hosts multiple editions of NFT's, Auctions, and Royalties for holders. Team Biction's future project scope includes Metaverse lands, Metaverse Gaming, and Events for holders.
