

Camille N. Immanuel, MD, MHS, a Pediatric Critical Care Medicine Specialist with Texas Center for Pediatric and Congenit

Get to know Pediatric Critical Care Medicine Specialist Dr. Camille N. Immanuel, who serves patients in Austin, Texas.

New York City, New York Feb 10, 2022 ([Issuewire.com](https://www.issuewire.com)) - Dr. Immanuel is a board-eligible pediatric critical care medicine specialist in the Texas Center for Pediatric and Congenital Heart Disease, a clinical partnership between Dell Children's Medical Center and UT Health Austin. Additionally, she is an Assistant Professor in the Dell Medical School Department of Pediatrics.

The Texas Center for Pediatric and Congenital Heart Disease, housed at Dell Children's Medical Center, diagnoses, treats and manages the care of children and adults with heart diseases and defects, including aortic coarctation, congenital heart disease, heart failure, pulmonary atresia, pulmonary valve stenosis, single ventricle defects, ventricular septal defects, and more.

With a broad educational background, Dr. Immanuel earned her Bachelor of Science degree in Cellular and Molecular Neuroscience at Johns Hopkins University, and received her Master of Health Science degree (MHS) from the Johns Hopkins Bloomberg School of Public Health, focusing on Biochemistry and Molecular Biology. She graduated with her medical degree from St. George's University School of Medicine.

Subsequently, she completed a residency in pediatrics at St. Joseph's Children's Hospital/New York Medical College, a fellowship in pediatric critical care medicine at Le Bonheur Children's Hospital/The University of Tennessee Health Science Center, and a second fellowship in pediatric cardiac critical care medicine at Children's Hospital Los Angeles/Keck School of Medicine of the University of Southern California.

Later, Dr. Immanuel completed a fellowship in interventional pulmonology and respiratory intensive care in Italy through the Global Medical Education and Cultural Exchange Grant/European Respiratory Society, as well as a fellowship in community-based health and development in India through the Comprehensive Rural Health Project. She is certified through the Society of Critical Care Medicine as an instructor for Pediatric Fundamental Critical Care Support (PFCCS).

In pursuit of clinical excellence, the doctor is board-certified in pediatrics and pediatric critical care medicine by the American Board of Pediatrics (ABP). The mission of the ABP is to advance child health by certifying pediatricians who meet standards of excellence and are committed to continuous learning and improvement.

Pediatrics is the branch of medicine that involves the medical care of infants, children, and adolescents. The American Academy of Pediatrics recommends individuals be under pediatric care up to the age of 21. Pediatric critical care specialists treat children from birth through the teen years. They choose to make caring for children who are very sick the core of their medical practice. Their advanced training and experience prepare them to give children in PICUs the unique medical care that they need.
