Abioye Alejandro Gotti's music has grown organically through the Bay Area. With songs like "Run it up," "HACE," and "Never Fold" people are quickly noticing a future star being born. His name, Abioye Alejandro Gotti emerged from multiple factors. Abioye was his given name. Alejandro was given to him by his adopted Puerto Rican family. While the name Gotti was granted by his friends in the neighborhood for his gangster mentality at such an early age. All of which, ironically, became the symbolism of diversity in his music.

Abioye Alejandro Gotti has a total of three albums currently, all of which were named after each one of his names. The album, "GOTTI" is his first completed project that he had released for pre-order on February 16th, 2021, on iTunes, and debuts February 23rd, 2021, on all platforms. It is a soundtrack to his life experiences through "GOTTI's" perspective. This album illustrates the rougher parts of his life.

The “ABIOYE” album, not yet released, highlights his singing and harmonizing talent. The “ABIOYE” album is a more soulful vibe. This project sorely stems from memories with his mother, the struggles he faced, the defeats he had, and the success he met. On the other hand, the “ALEJANDRO” album will illustrate the salsa/trap vibe that brings both Latin and African cultures together in a way that nobody’s heard before. This unreleased album was recorded in Spanish.

It is safe to say that we have a lot to look forward to from Abioye Alejandro Gotti. His freshly dropped songs “No other” ft DJ June, “On sight,” “Run it up,” “A Foo” ft RRE Stewy, “Hace,” “Dos” and “Never Fold” are his latest song inspired by the loss of his two best friends Fontino Hardy Jr. (Tino) and Robert Castine Bridges (TC).
