

Erin M. Stone, MD, FACOG, an Obstetrician-Gynecologist with Tryon Medical Partners SouthPark

Get to know Obstetrician-Gynecologist Dr. Erin M. Stone, who serves patients in Charlotte, North Carolina.

New York City, New York Feb 16, 2022 ([IssueWire.com](https://www.issuewire.com)) - A determined obstetrician-gynecologist, Dr. Stone is affiliated with Tryon Medical Partners SouthPark in Charlotte, North Carolina. Her areas of clinical interest include pediatric and adolescent gynecology, contraception, preconception/fertility, Polycystic Ovary Syndrome, HPV, and abnormal PAP smears, and more.

“I chose obstetrics and gynecology because I am passionate about women’s health. A woman’s physical, mental, and emotional well-being are all intertwined, and if one part is off, it affects the others. To me, a woman’s menstrual cycle is a vital sign. I love helping girls navigate puberty, preparing women for pregnancy, helping differentiate between normal and abnormal uterine bleeding throughout the aging process, and helping all women feel confident about their bodies. I feel lucky to get to talk to women every day about their bodies, minds, and overall health” expressed the doctor.

Throughout her academic career, Dr. Stone graduated with her medical degree from East Carolina University in 2008, before completing her residency in obstetrics and gynecology at the Medical University of South Carolina in 2012.

Recognized as a Fellow of the American College of Obstetricians and Gynecologists (ACOG), the doctor is board-certified in obstetrics and gynecology by the American Board of Obstetrics and Gynecology (ABOG). The mission of the ABOG is to define specialty standards, certify obstetricians and gynecologists, and facilitate continuous learning to advance knowledge, practice, and professionalism in women’s health.

Obstetrics and gynecology (OB-GYN) is the medical specialty that encompasses the two subspecialties of obstetrics (covering pregnancy, childbirth, and the postpartum period) and gynecology (covering the health of the female reproductive system – vagina, uterus, ovaries, and breasts).

Among her most notable achievements, Dr. Stone has been the recipient of the Lawrence Hester Award, Golden Apple Teaching Award, Donald Richardson Memorial Prize Paper Award, and Business North Carolina Magazine Top Doctor Award (2021).

Outside of work, she enjoys spending time outdoors with her husband, Roger, and their dog, Gracie. She also loves to hike, water ski, and go to yoga classes with her mother.
