With our newsletter, we share our thoughts on the many creative ways to style a scarf, the colour and patterns that are in trend, and many interesting topics for women who love both style and sustainability and want to make the most of them.

About Louis Jane.com

Louis Jane is a textile art design house that was established in 2010 by artist and creative entrepreneur Louise Wannier. Louise creates original art emanating from the patterns she finds within the life and energy of our natural world.

From Louise's original art, we create exquisite, sustainable silk scarves that are handmade in Italy. Our vision is circular: our scarves are to be loved, treasured, shared, passed on, transformed and when they can be enjoyed no more, they will return to nature. The women who wear Louis Jane are independent, dynamic, intelligent change-makers - successful, stylish, confident women who make positive choices, helping to shape our future and protect our planet. We believe that we are all connected and take responsibility for our earth and each other. We give 10% of our net proceeds from each sale to charities that support our values. When nature thrives, we thrive.
