

Fatemeh Malekpour, MD, a Vascular Surgeon with Staten Island University Hospital

Get to know Vascular Surgeon Dr. Fatemeh Malekpour, who serves patients in Staten Island, New York.

New York City, New York Feb 28, 2022 ([IssueWire.com](https://www.issuewire.com)) - A board-certified and fellowship-trained vascular surgeon, Dr. Malekpour is in practice at Staten Island University Hospital. She also serves as an Assistant Professor at the Donald and Barbara Zucker School of Medicine at Hofstra/Northwell.

A part of Northwell Health, Staten Island University Hospital is a 668-bed specialized teaching hospital that occupies two main campuses and numerous community-based health centers and laboratories. The 17-acre campus on Seaview Avenue in Ocean Breeze offers a wide range of services and features the island's most advanced emergency department (ED), a state-of-the-art education center, and a renowned Heart Institute.

A native of Iran, Dr. Malekpour graduated with her medical degree from the Islamic Azad University - Tehran Branch. Wanting to further her education, she relocated to the United States and completed her residency in general surgery at the Bronx Lebanon Hospital Center. Finally, she completed her fellowship in vascular surgery at the UT Southwestern Medical Center.

An authority in her field, the doctor is board-certified in vascular surgery and general surgery by the American Board of Surgery (ABS). The ABS is an independent, non-profit organization located in Philadelphia, Pennsylvania, founded for the purpose of certifying surgeons who have met a defined standard of education, training, and knowledge.

Vascular surgery is a surgical subspecialty in which diseases of the vascular system, including the arteries, veins, and lymphatic circulation, are managed by medical therapy, minimally-invasive catheter procedures, and surgical reconstruction. A vascular surgeon diagnoses treat and manage conditions in the arteries and veins, also called the blood vessels. These specialists treat a range of health problems, from spider and varicose veins to life-threatening aneurysms, and can help patients manage chronic conditions throughout their lives.
