

Gifola announces two new technological innovations on its network

Gifola has launched two new applications on its global platform

Gurgaon, Haryana Feb 1, 2022 ([Issuewire.com](https://www.issuewire.com)) - [Gifola](#) has launched two new applications on its global platform, moving ahead with technology yet one more time. It has announced a unique Access Control system on Gifola .tech and a MagicQR on Ginbox.io.

What is Gifola Access Control?

An Access Control system is a process of restricting and controlling people's access to a place or premises. Physical access control can be enforced by personnel who monitor the people's entry and exit. However, this digital era demands a state-of-the-art system where you can manage everything electronically at your fingertips. Gifola Access Control enables you to monitor and restrict your premises using an electronic device and a mobile application. It also allows you to have hassle-free and faster access to the places you are about to move in.

Why choose Gifola Access Control System?

Available at Gifola. Tech., this is an access control system that is applicable globally.

- This [Access Management System](#) allows you to drive and check-in smoothly at various places such as shopping malls, offices, hospitals, industries, societies, and free/paid car parking spaces.
- The application gives easy control of visitors at any place and any time, allowing global visitor management.
- This system keeps your place safe and secure by monitoring it 24/7. It allows the entry of a person only after Permission request, Identification, and Authentication.
- By controlling the movement of people at the premises, it allows for global community management.
- This access control lets you pre-book your parking slot at busy spaces like malls, theaters, restaurants and avoid unnecessary waiting. Its mobile application also allows you to find the parking space near you.

Be wise and opt for a smart electronically controlled access management system with Gifola devices and applications!

What is MagicQR

This is another creative feature launched by Gifola to address all your shopping needs. Works by a single scan through your smartphone, MagicQR gives you all the details of the deals and discounts available near you.

Why choose MagicQR?

[MagicQR](#) can be found on the page of [Ginbox.io](#) and at various shopping places.

- By scanning the MagicQR displayed at the shopping mall, you will know about all the offers and deals running in that arcade.
- Additionally, it rewards you points by Ginbox and a Special discount from the merchant.
- MagicQR can be used for all types of products & services and is applicable globally.
- This feature lets you get information about all the ongoing sales and discounts in a shopping space you plan to visit.

Let it be a businessman, entrepreneur, retailer, or shopkeeper. MagicQR is for everyone who wishes to increase their potential customers.

Gifola Access Control and MagicQR are the two new technological innovations launched by Gifola. These highly secured futuristic approaches enable users to have a seamless and faster experience with a single app and an IoT device.
