Too much junk? Don't have the time or the desire to deal with it? Let us take care of it for you!

Let's face it, we've all been there. That small pile of garbage and random items that we've been trying to get rid of for a long time continues to grow in size and in the level of annoyance that it causes to even look at it. At this point it's become a dreaded eyesore. Whether it's in our garage where we used to be able to park two of our vehicles without an issue and now it seems like we are having difficulty parking the one car because the other spot has been taken up by the junk, whether it is our basement and the old furniture we've been meaning to dispose of for a long time or the garbage bags that the city's workers "forgot" to take one too many times and are now piling up on the side of our house.

We'll take care of the junk for you!
