

Icon Cards Art releases Apple Wallet & Google Pay solutions for their NFT card.

Icon Cards Art have developed and released on OpeSea an non-fungible token (NFT) Card with unlock-able content that is compatible with Apple Wallet and Google Pay.

London, United Kingdom Feb 24, 2022 ([Issuewire.com](https://www.issuewire.com)) - Icon Card Art announced today that OpenSea customers will now have access to an enhanced version of Icon Cards Art NFT introducing *Icon Card Wallet*, which offers Apple Wallet & Google Pay compatible options aligned with the shifting needs and digital trends of consumers.

Icon Card Wallet a digital, smart wallet solution created by Icon Cards Art, in its new rendition, is centred around consumers' needs to view a copy of their digital asset. This is the first of its kind NFT to be a Utility combined with traditional NFT collectibility. Icon Card Wallet's current collection release of 30 NFT images that have become entrenched in NFT culture, gaining widespread Instagram attention with the highest value card valued at 100,000 Ethereum. Only one membership is available per level guaranteeing product exclusivity.

Icon Card Wallet is the new generation of loyalty solutions, allowing consumers to add a wallet-enabled version of their NFT at their leisure, to all major digital wallets available in the region, as well as Apple Pay and Google Pay.

"We're excited to work with OpenSea to grow the Icon Card universe and expand the utility and benefits offered to all Icon Card NFT holders. There are very few brands that are able to represent the fast-evolving world of NFTs as effectively as Icon Card Wallet." said an Icon Cards Art spokesperson. "The idea of carrying your NFT in the same wallet as your regular credit & debit cards are revolutionary in the NFT space where other products are hosted in separate apps or additional wallets. We can't wait to share more with the community about the technology we are building."

The new cards were released in Q1 of 2022 and will feature digital wallet content.

About Icon Cards Art

Icon Card Wallet is a collection of card NFTs (non-fungible tokens) on the Ethereum blockchain that have become entrenched in popular culture. Created by Icon Cards Art, each Card NFT doubles as membership to an exclusive unlockable content that allows you to add a copy of the NFT to smart wallets such as Apple Wallet and Google Pay where they can receive notifications and live updates from the brand. Commonly known as Icon Card, the collection was launched in February of 2022 and has expanded to include the spinoff collections Icon Card, Colour, Icon Card Custom, and Icon Card Habitat, with part of the sales being donated to Habitat for Humanity.
