

Incoming Crypto Tidal Wave, The Essential Coin

New comer The Essential Coin due to Launch NFT Marketplace

Dallas, Texas Mar 6, 2022 (Issuewire.com) - Stop the presses...

BIG NEWS Incoming...

The Essential Coin is a Tidal wave quickly making its way across the crypto ocean, building momentum, becoming more powerful, and delivering on utilities.

Certik (the gold standard of auditing firms in crypto) has recently audited this powerhouse of crypto. Their audit is second to none, in my opinion. Certik found informational issues stating that some of the code was unnecessary. And made a request to have the contract ownership renounced, to which The Essential Coin mitigated that issue for over 50 years.

The Essential Coin has dominated moonscan, they have recently become the top 10 favorites on their site, and they also secured the #10 position of biggest paying reflections tokens around! Couple this with the launch of their Global NFT Market place EPOCH - where you can mint, STAKE to earn BNB, sell, and trade NFTs - they're going to be taking over the crypto world!

In the near future, they'll be releasing their own staking and farming platform, launchpad, swap, dapp, and BLOCKCHAIN!!!!

If you've been living under a rock, you can thank me later cause watch out this wave is coming fast!
