

Jonathan Ellichman, MD, a Vascular Surgeon with Ellichman Vein & Vascular Centers

Get to know Vascular Surgeon Dr. Jonathan Ellichman, who serves patients in Memphis, Tennessee.

New York City, New York Feb 14, 2022 ([IssueWire.com](https://www.issuewire.com)) - An established vascular surgeon, Dr. Ellichman founded Ellichman Vein and Vascular Centers, in Memphis, Tennessee, on the premise that minimally invasive vascular surgery could be delivered safely and efficiently in an outpatient environment.

With an extensive surgical background which includes clinical research, academic and clinical practice, as well as the exploration and development of minimally invasive vascular technology, he has been a lifelong learner. He carries his enthusiasm for innovative medical solutions into Ellichman Vein and Vascular Centers, embracing minimally invasive procedures designed to improve patient's health as effectively and efficiently as possible.

Throughout his academic career, Dr. Ellichman graduated with his medical degree from the American University of the Caribbean School of Medicine in 1999. He completed his residency in general surgery at the Jewish Hospital of Cincinnati in 2005, followed by a fellowship in vascular surgery at the University of Tennessee College of Medicine in 2007.

In pursuit of clinical excellence, the doctor is board-certified in vascular surgery and general surgery by the American Board of Surgery (ABS). The ABS is an independent, non-profit organization located in Philadelphia, Pennsylvania, founded for the purpose of certifying surgeons who have met a defined standard of education, training, and knowledge.

Having worked in a variety of medical settings, he has held the position of Assistant Professor of Surgery at the University of Tennessee, the Medical Director of Vascular Surgery at Crittenden Regional Hospital, and a cardiovascular surgeon at Southern Cardiovascular, PLLC. He opened Ellichman Vein and Vascular Centers in 2014.

Vascular surgery is a surgical subspecialty in which diseases of the vascular system, including the arteries, veins, and lymphatic circulation, are managed by medical therapy, minimally-invasive catheter procedures, and surgical reconstruction. A vascular surgeon diagnoses, treats, and manages conditions in the arteries and veins, also called the blood vessels. These specialists treat a range of health problems, from spider and varicose veins to life-threatening aneurysms, and can help patients manage chronic conditions throughout their lives.
