

Joseph Metes, MD, a Neuroradiologist with Eastpointe Radiologists

Get to know Neuroradiologist Dr. Joseph Metes, who serves patients throughout the State of Michigan.

New York City, New York Feb 17, 2022 ([Issuewire.com](https://www.issuewire.com)) - A seasoned neuroradiologist, Dr. Metes is affiliated with Eastpointe Radiologists, seeing patients at their offices in Clinton Township and Grosse Pointe Woods, Michigan. He can also be found on staff at Ascension St. John Hospital.

With their full range of subspecialty radiologists providing accurate, timely, and actionable results for all types of imaging exams, Eastpointe Radiologists provide its referring clinicians the ability to expedite the appropriate care to their patients. Effective communication is what sets them apart. It is not just the radiology report, but also the ongoing dialogue with both clinical staff and patients that is indispensable for the delivery of high-quality health care.

Back in the early days of his academic career, Dr. Metes graduated with his medical degree from the Wayne State University School of Medicine. He went on to further his training by completing his residency in diagnostic radiology and his fellowship in neuroradiology at Harper University Hospital.

As a testament to his continued education, the doctor is board-certified in diagnostic radiology and

neuroradiology by the American Board of Radiology (ABR). The ABR is a not-for-profit physician-led organization that oversees the certification and ongoing professional development of specialists in diagnostic radiology, interventional radiology, radiation oncology, and medical physics.

Neuroradiology is a subspecialty of radiology focusing on the diagnosis and characterization of abnormalities of the central and peripheral nervous system, spine, and head and neck using neuroimaging techniques. Neuroradiologists are doctors who focus on diagnosing conditions of the spine, neck, head, and central nervous system. They use medical equipment, such as computed tomography or magnetic resonance imaging machines, to identify problems.
