

Kids Land Launch new Baby Phone - Kids learning app with fun learning games

Baby Phone - Kids learning app

Surat, Gujarat Feb 13, 2022 ([Issuewire.com](https://www.issuewire.com)) - Kids Land is honored to announce the launch of a new application “[Baby Phone](#) Game: Kids Learning App ” which is an app that lets your baby grow by learning and playing easy peasy fun games on a smartphone. A virtual toy phone for babies having All-In-One amazing features; baby songs, Interactive & fun educational games, free fun games for kids, Different Animal sounds, Sounds of vehicles & other funny sounds to have lots of enjoyment. Kids can call experts/professionals to play and learn to talk to grow their speaking skills.

Learning educational apps can help your kids learn and be entertained. There are plenty of free mini-games for kids that support learning, teaching, homeschooling, and interactive play. These kid-mobile-friendly games for toddlers and preschoolers are free to download and help kids learn while having fun. Parents can now find quality educational games that help teach kids for free that cover everything from reading to memorization.

Baby Games for one-year-olds covers a great many of the skills which will develop in their first experiences of using technology such as practising to tap on-screen objects, moving objects on a screen, and relating objects shown to their actions and preferences. It covers many of the areas of education that children will build at school or kindergarten. All the preschool learning Numbers, colours, shapes, and letters are included in small/mini fun games.

The CEO of Kids Land said that “The app is carefully designed for little ones with simple cartoon images, baby giggles, fun sounds, and familiar nursery rhyme songs. Children aged around 1 year do not need to have their achievements logged and monitored in the way that other games may do. This app is structured for the learning & playing category so that children can easily select random activities

they like to practice. Parents can understand which areas of the app have engaged their children and find ways to reinforce these skills in everyday life.

The educational games are suitable for ages 1 to 6 years old toddlers and preschool children. The application is available on both Android and iOS platforms and works well on a mobile and tablet device in landscape mode.

Mobile devices and internet connections are available worldwide. This is our opportunity as app developers to reach and make a positive difference for kids who do not have access to schools or books, but whose parents have a smartphone that can be made a virtual toy phone for kids without investing in realistic toys.

The app itself is colourful and engaging. There are 13 mini-games on the opening page that are free to play.

The app supports the devices having O.S version 5.0 and up.

Download Baby Phone kids learning Game to keep them entertained.
