

Leading app development company, Aglowid announces expansion of its IT Staffing Augmentation services

Georgia, United States Feb 21, 2022 ([IssueWire.com](https://www.issuewire.com)) - Clients are the first priority for every business around the globe. Aglowid IT Solutions, one of the fastest-growing web & mobile app development companies, recently announced the expansion of their high-quality Staffing Augmentation services that will help companies reduce their overall turnaround time. With their services, organizations will be able to improvise project outcomes, offer continuous support to their clients who receive the services from highly-trained and experienced developers.

“There is an unprecedented demand for the IT staffing augmentation services due to the increasing demand for IT experts and the declining availability of credible talent in the market. We see this market opportunity for which we are heavily expanding our assets to bridge the gap in the market for our clients”, says Mr. Nitin Solanki (Business Analyst at Aglowid IT Solutions).

The company’s latest IT staffing delivery process model can help startups, entrepreneurs, and businesses of all scales to acquire intense success speeding up delivery time with their best tech talents. They have a team of skilled developers who have years of experience in working in the field. They keep themselves updated about the newest trends and technologies, providing the clients with up-to-date and seamless IT services.

The developers at Aglowid are fully-equipped to handle any project or project requirement in a highly efficient and professional way. They are trained to work according to the client’s time zone and are well diverse with different work cultures. They are well-versed to work with companies ranging from Food, medicine, or grocery delivery business to eLearning, eCommerce, and real estate businesses. They offer creative inputs and innovative development solutions alongside their custom development services. Now companies can hire their professional developers at full time, half time, or hourly-basis at affordable prices.
