

Michael Mangonon, DO, a Hand Surgeon with Atlanta Hand Specialist

Get to know Hand Surgeon Dr. Michael Mangonon, who serves patients in Atlanta, Georgia.

New York City, New York Feb 8, 2022 ([Issuewire.com](https://www.issuewire.com)) - A board-certified and fellowship-trained hand surgeon, Dr. Mangonon is affiliated with Atlanta Hand Specialist. Prior to joining their team, he practiced in New York City, where he contributed to a thriving and successful independent practice in New York. Today, he provides compassionate and experienced care to the residents of Atlanta, Georgia.

The doctor focuses on the diagnosis and treatment of both surgical and non-surgical conditions of the hand, wrist, and elbow in both adult and pediatric patients. He is also experienced in minimally-invasive carpal tunnel surgery techniques.

The physicians and staff at Atlanta Hand Specialist provide innovative solutions for conditions that affect patients' lifestyles. Their team can help successfully treat any condition in the arms, hands, or fingers that deter them from living a full, active life. Their board-certified surgeons, led by Dr. Viralkumar Patel, work with patients throughout the Atlanta area.

With a broad educational background, Dr. Mangonon completed his undergraduate education at Johns Hopkins University. He then went on to earn his Doctor of Osteopathic Medicine degree from the Nova Southeastern University School of Osteopathic Medicine.

After graduation, he returned to his home state of New York, where he completed his residency in general surgery at Lutheran Medical Center, a Level-1 trauma hospital in the heart of Brooklyn. After finishing his residency, he went on to complete a fellowship in hand and microvascular surgery at The State University of New York in Buffalo.

With an unwavering commitment to his specialty, the doctor is board-certified in surgery of the hand and general surgery by the American Osteopathic Board of Surgery, which is an organization that provides board certification to qualified Doctors of Osteopathic Medicine who specialize in the use of surgery to aid in the diagnosis and treatment of disease.

Hand surgery is surgery of the hand, the wrist, and the peripheral nerves of the upper limb. It also encompasses reconstructive surgery that improves upper limb function. Many disorders and injuries of the hand are treated without surgery, using splints, taping, injections, and hand physiotherapy. Hand surgeons care for these problems with and without surgery. They are specially trained to operate when necessary. Many hand surgeons are also experts in diagnosing and caring for shoulder and elbow problems.

Outside of the practice, Dr. Mangonon is an avid golfer and enjoys spending time outdoors in the beautiful Georgia weather.
