

Official Rapid Tests With Guidance From CEO Adonis, Secures Deal For Breakneck Expansion

London, United Kingdom Feb 23, 2022 ([Issuewire.com](https://www.issuewire.com)) - Multiple European Union countries will begin to accept the UK's famous Official Rapid Tests certification system for COVID-19 certification. The (EU) has collaborated with Official Rapid Test (ORT) to make it one of the largest COVID-19 private testing companies in Europe; this deal will secure an increase in customers and clients.

"We are proud that our tests are being accepted internationally," says CEO Adonis Hakkim, "making us fit for travel is essential in restarting the travel sector." Official Rapid Tests [fit to fly covid test](#) scheme is essential in preventing future outbreaks in airports; the antigen test screens passengers in real-time, before they can board their flight. "With recent outbreaks happening almost monthly, making sure air travel is secure is extremely important. Make sure airlines and airports can find out if their passengers are fit to fly before they board, in the future," says Adonis Hakkim.

Official Rapid Tests will move into 60 new locations across Europe and the UK and fit-to-fly covid tests will be available in over 1000 airports. Its flagship testing facility will be in central London, called the [PCR Test London Centre](#). This deal with the EU ensures that we can keep working together towards a healthier future.

About Official Rapid Test

Official Rapid Tests is a UK Government approved testing provider, that works closely with the government and other major organizations.
