

Premium Cremation Urns Retailer Introduces A New Cremation Urn Collection, “AMALFI”

GetUrns, LLC. introduces “Amalfi”— designed and handcrafted by skilled artisans in Italy—a place renowned for its mastery in wooden inlay.

Dallas, Texas Feb 10, 2022 ([Issuewire.com](https://www.issuewire.com)) - GetUrns, premium [cremation urns](#), and cremation jewelry retailer introduces a new collection of cremation urns, “Amalfi”, featuring delicately hand-cut and carefully assembled wooden inlay designs. The Amalfi Collection offers something truly beautiful to remember your loved ones by.

- The latest release of new high-quality beautifully inlaid wooden urns. The decorative wood inlay technique is an ancient and intricate process.
- The highly detailed patterns are created by precise hand-cutting and assembling of very thin pieces of colored wood and applying them to the surface of the urn.
- The glossy surface is achieved through labor-intensive lacquering that involves applying a minimum of five layers of liquid varnish and sanding between each coat.
- *The Adult Amalfi Azzurro Cremation Urn* features a delicate natural pattern that appears to flow infinitely over a calming blue sea—symbolizing life, wisdom, peace, and purity.
- *The Adult Amalfi Fiore Cremation Urn* is inspired by fresh-cut flowers and spring gardens. The pattern is fresh and celebratory, conveying simple organic beauty found in nature, and creating an elegant remembrance of your loved one from season to season.
- *The Adult Amalfi Hugo Cremation Urn* is influenced by ancient and inimitable woodworking techniques of Italy. This cremation urn is unique and combines charm with the most modern pulses of contemporary design.

“The delicate and intricate process in creating these urns marries form and function into a work of art, ensuring that it becomes a timeless family heirloom.”
