

Pristine Medical Helps Free Up Patient Beds In Arizona Hospitals

Modern-Day House Calls Changing Access To Medical Care

Phoenix, Arizona Feb 13, 2022 ([Issuewire.com](https://www.issuewire.com)) - Whether COVID-19 numbers may be improving or not, hospital staffing is still hurting. With long hospital waits for emergency room and even urgent care visits many people are hesitant to visit. Not experiencing an emergency and don't want to wait hours in a waiting room? Pristine Medical is the answer.

Pristine Medical is Arizona's #1 mobile medical house call service. Staffed by licensed and emergency medicine experienced medical providers, Pristine Medical can evaluate, diagnose and treat everything from illnesses such as COVID-19 to cuts requiring stitches, all in the comfort of your own home. Pristine Medical brings urgent care to you. Pristine Medical providers can conduct various lab tests and dispatch a specialized mobile radiology service if an x-ray or other advanced imaging is required. If medications are necessary your provider will electronically send your prescription to your pharmacy before they leave your home. This service is truly unique in that there are no nurses or assistants. All of the care you receive from beginning to end is done by the medical provider including vitals. This allows the patient to truly receive the attention and care that patients deserve.

Pristine Medical does not currently accept medical insurance however many health insurance carriers may reimburse a patient after they submit a claim and a copy of their receipt. Pristine Medical house calls start at \$200 and are available for the Phoenix Metropolitan area. To learn more or to book an appointment call 602-633-9700 or visit www.mypristinemedical.com
