

Stacey Smalara Muckler, RN, BSN a Registered Nurse with Memorial Hermann Cypress Hospital

Get to know Registered Nurse, Stacey Smalara Muckler, who serves patients in Cypress, Texas.

New York City, New York Feb 28, 2022 ([IssueWire.com](https://www.issuewire.com)) - Stacey is a Texas-based registered nurse currently affiliated with Memorial Hermann Cypress Hospital.

Located in the dynamic and fast-growing Cypress area, Memorial Hermann Cypress Hospital brings the expertise of the Memorial Hermann Health System, including the region's top medical specialists, to families in the Cypress and Northwest Houston area.

To begin her career, Stacey earned her nursing degree from the University of Pittsburgh. She worked at UPMC as a graduate nurse. She went on to be commissioned into the USAF and served as an officer at Altus AFB and Tyndall AFB. After serving her country for 4 years, she went on to work at Carolinas Medical Center in Charlotte NC at Mercy Hospital. She then moved to Texas in 2012 and started working again as a nurse in several hospitals the most current one being Memorial Hermann Cypress.

Her experience includes med-surge, L and D, newborn nursery and postpartum, ICU, ER, Pre-op and PACU, and pain clinic. She is a TNCC and ENPC instructor and is NRP, ACLS and PALS certified.

On a more personal note, she attributes her success to being a people person and providing her patients with great care. She absolutely loves being at the bedside and cannot imagine being anywhere else even on the most challenging days/.

A Registered Nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province, or similar licensing body to obtain a nursing license. RNs fulfill a variety of job duties. In addition to their primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include leadership, research, performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.
