All of your fantasies and desires will be fulfilled in Life Makeover, thousands of clothes and accessories await you. Whether be taking a walk on the beach with friends, or attending a formal dinner party, you will never run out of style!

Beyond simply choosing and styling, you can also craft and design clothes. From selecting the fabric to cutting and sewing, the whole process of making the fabric into clothes is under your control. Tryout your own designs in Life Makeover.

Limitless Gameplay, Experience an Endless Romantic Life

Life Makeover breaks through the boundaries of character customization. Every detail of your character's face can be customized, down to the expression of a smile. In addition, you can define different skin tones and body shapes to show your personality and uniqueness.

In terms of the Home system, Life Makeover also brings a different experience for players. You can freely choose the location of your house, create your own style of home, and meticulously decorate every corner of your home. On top of these, all furniture and decorations can also be made, placed, and colored by you.

In addition, in the romantic world of Life Makeover, there are more different interactive experiences waiting. You can design unique clothes, raise cute pets, meet other players online, and invite them for an afternoon tea together..... Everything romantic that you can imagine can be realized in Life Makeover.

Super high quality and realistic details

As a dress-up life simulation game, Life Makeover is developed with Unreal Engine 4, which offers the players the most realistic graphics such as fine skin texture, realistic hair details, exquisite clothing materials, sparkling jewelry embellishments The high-quality graphic allows players to experience a real-life level of feeling and visual enjoyment.

(Realistic skin texture, faintly visible muscles, and blood vessels)

(Exquisite clothing texture and reflection)
