

The Unique Approach of Reggae Music from Music Artist DJ Ascend is Highlighted in Her Latest Track 'UPFUL'

Brilliant with her composing, and calmingly beautiful with her beats, American electronic Music artist DJ A\$cent has come up with her brand new track 'UPFUL'.

Los Angeles, Feb 22, 2022 ([Issuewire.com](https://www.issuewire.com)) - DJs are known for heavy beats and loud music capable of entertaining music lovers. One artist who has taken a different approach is **DJ A\$cent**. The artist has come up with her brand new track '[UPFUL](#)', which is a DJ mixed track with calming beats. The track is one of a kind as the blend of lyrics and music takes a different turn. The initial part

of the track focus on the beats and the latter part is embedded with lyrics. The soulful contribution from the artist has been portrayed with rhythmic beats along with all the instrumentals in the tracks, which bring a new dimension to electronic music. The artist has described her track as reggae-influenced music. The minimal use of lyrics in the latest track makes it even more interesting.

Hailing from Los Angeles, United States, the versatile and prolific artist has been associated with music for nearly a decade. The artist is well renowned worldwide for her smooth composition of long tracks, which are unique, and always offer something new. The Jamaican influence of reggae music is well evident in the latest track, as the artist has maintained the perfect balance of rhythm and beats. Some of the other works from the artist include tracks like 'Urban Yoga', 'Earth Is Our Mother (sexyhouseremix)', 'galactic deep mix house * tape', 'Electric Y O G A', and many more.

The independent artist has become a master of her work as she has polished her skills over the years. The artist has always lived up to the expectations of her fans and has delivered top-notch productions. The artist will surely reach new heights with her brand new track. The latest track '**UPFUL**' is available for listeners on the music-streaming platform [Soundcloud](#).
