

Advent Galaxy™, Division of TGI Enters Metavertse AR / VR World by Developing of ADVENT Mega Mall

Advent Galaxy Metaverse

North Miami, Florida Mar 1, 2022 ([Issuewire.com](https://www.issuewire.com)) - (OTCMarkets: [TSPG](#)) ("TGI"), a diversified technology and environmentally efficient real estate development company currently developing Advent City: 700 villas, 120 garden apartments, shopping and entertainment centers in the Yucatan, Mexico announced today that it began to develop Augmented Reality / Virtual Reality Advent Mega Mall metaverse, with a native NFT Gallery, powered by Roomful Co technology.

As malls and shopping centers decline rapidly, it is easy to see them as nostalgic, things of the past. This is primarily due to the rise of e-commerce, economic instability, and all made worse by the pandemic.

"Once upon a time, before the internet and existence of e-commerce, the mall was the meeting place for eating, entertainment, and of course shopping. Then came Facebook, Amazon, and other e-commerce platforms. And while online shopping is convenient and practical, the metaverse and other technologies are already starting to replace it. A space where people can meet as personalized avatars from anywhere in the world simplifies the entire process. That's our vision of the future. We will focus on the fun, fashion, and entertainment concept, which I believe is where a lot of commerce is heading," Samuel Epstein, COO of TGI said.

ADVENT™ MEGA Shopping mall is going to become a central meeting place and center for important social interactions between people of different backgrounds and age groups. Underlying technology powered by ROOMFUL.NET, allows for your shopping to be replaced by a virtual mall in the metaverse. Entertainment zones, meeting, and interacting with your friends at a coffee shop in real-time are the future. Conducting business in co-working spaces without leaving one's house in the future. A VR/ AR

ADVENT™ MEGA mall is coming soon and will become a reality, thanks to ADVENT GALAXY, powered by ROOMFUL.net.

Maxim Val, CEO of ADVENT GALAXY™, has said the following about ADVENT MEGA mall in the metaverse, “a new era of ecommerce in virtual reality is upon us.” Mr. Val said the combination of co-working, e-commerce, fashion, and community meeting places with great entertainment, 3D visual A/R, V/R, and easy interaction, makes it a dream come true environment.

About Roomful Co: Roomful is a powerful and advanced 3D Multiverse, the platform for metaverses, the alternative digital realities, where people work, play, share content and socialize. Roomful Studio's ready-made 3D templates allow creating highly engaging interactive and memorable experiences for trade shows, virtual offices, Art Fairs, Science Fairs, Social Spaces, Interactive Classrooms, Virtual Museums.
