We have different kinds of the large blazing cutter, plasma cutter, large punch machine, CNC machining center, large painting machine, and other high-class machines and testing equipment, which ensure the perfect quality of each product we produce. Now our products include counterbalance diesel forklift, electric forklift, gas/lpg forklift, terrain rough forklift, hand pallet truck, electric pallet truck, electric stacker and reach truck etc.

In 2019 we have passed the strict assessment and been included into the supply vendor system for Heli, to do the OEM manufactures for hydraulic manual pallet trucks and other warehouse material handling products. And in local markets we have covered various industries such as warehousing, logistics and retailers, which enjoys very high reputation.

With unremitting efforts, our company constantly improves the production capacity and updates technology to meet the growing increasingly markets. Our forklifts and material handling equipment have been exported to Europe, America, the Middle East, Southeast Asia, Africa and many other countries and regions. And our sales team also participates in various industry-related exhibitions domestic and abroad.
