

Appdupe crypto business proficiency offers a market-ready Whitelabel NFT marketplace equipped with ultra-modern features

Chennai, Tamil Nadu Mar 17, 2022 ([Issuewire.com](https://www.issuewire.com)) - AppDupe, a trailblazer in the Blockchain space, is glad to announce that their custom-made [white-label NFT marketplace](#) is ready for multi-niche usage. This marketplace platform has the potential to connect AppDupe with a wide variety of entrepreneurs, small and medium-sized enterprises (SMEs), to harness the power of blockchain technology. NFTs (non-fungible tokens) are nothing but blockchain-linked digital assets that encompass their traceable ownership details. While NFTs serve as an investment option, the NFT marketplace platforms function as viable business models.

White-labeling, as a concept, is exceptional in the NFT marketplace development (too). An entrepreneur procures a white-label NFT marketplace platform and rebrands before putting it all together in front of the NFT community. AppDupe offers fully customizable white-label NFT development solutions to startups. White Label marketplace platform enables them to avoid such significant costs. This model allows them to concentrate on their main competencies rather than supporting activities.

White-label NFT Marketplaces from AppDupe

[AppDupe](#) makes its White-labeling a multi-chain affair with compatibility on Polkadot, Polygon, Ethereum, and much more. There are (obviously) several niches that NFT marketplace serve a purpose (for); let's take a look at some of them:

NFT Marketplace for Music

The benefits of a white-label Music NFT marketplace are clear - intermediary-free NFT trading, seamless royalty payments, and much more. Music enthusiasts can trade their favorite music tracks (as NFTs) via this marketplace. Entrepreneurs, on the other hand, can serve as the 'connecting bridge' between peers.

NFT Marketplace for Artists

AppDupe prioritizes a visually-appealing user interface (UI) while building a white-label NFT marketplace for artists. With this ready-to-deploy marketplace platform, entrepreneurs can accommodate independent artists depicting their value-added artworks, ranging from generative to traditional ones.

NFT Marketplace for Games

Entrepreneurs can persuade gaming enthusiasts to trade in-game items via the NFT marketplace for games. AppDupe also offers NFT Gaming platform development solutions along with marketplace development.

Much more

AppDupe, a prominent NFT tech facilitator, offers a wide variety of white-label development solutions like the NFT minting platform, physical assets NFT marketplace, and NFT launchpad platform.

About AppDupe

AppDupe is a prominent Blockchain company with wings spread out in the non-fungible tokens (NFTs) recently. The company is one of the early birds of the Blockchain space (since 2017). Known as a leading mobile app development company, AppDupe is en route to becoming a frontrunner in the [NFT space](#). The company aims to simplify the NFT space with off-the-shelf solutions, custom-made services, and white-label platforms.
