

ARES PRISM Software Announces New Global Headquarters in Naperville, Illinois

Naperville, Illinois Mar 15, 2022 ([Issuewire.com](https://www.issuewire.com)) - ARES PRISM Software, the leader in helping large and megaproject-level construction projects deliver on time and on budget, has announced the relocation of its corporate headquarters from Burlingame, California, to Naperville, Illinois.

"We are excited to establish Naperville as our official headquarters," Ryan Kubacki, CEO of ARES PRISM, said. *"There is a great talent pool here in the 'Silicon Prairie' area, and Naperville is a convenient, central hub for our teams across North America. The proximity to O'Hare Airport allows for easier travel for our international teams, too."*

The ARES PRISM project controls software suite is used on major capital projects across the world to manage project and program costs and budgets. Large EPCs, government-funded infrastructure, mining, and megaproject organizations in the US, Canada, UK, and Australia turn to ARES PRISM Software to achieve superior project management with increased visibility and control, boosted accuracy, and efficiency, and improved financial performance.

Kubacki, a long-time Naperville resident, partnered with growth equity firm M33 Growth to buy ARES PRISM from founder Richard Stuart, an industry luminary who is now retiring. Kubacki is a proud co-investor in the business.

"Our community is honored to welcome ARES PRISM's new global headquarters," Naperville Mayor Steve Chirico said. *"We are proud that a company on the cutting edge of their industry finds common ground in Naperville, a leading-edge community. As mayor, it is even more heartwarming that a Naperville native is leading ARES PRISM's move to Naperville."*

The new headquarters is on the tenth floor of the Metro West building and houses many of ARES

PRISM's senior executive team. Kubacki has hired seven Chicago-area residents in the past two months, including fellow Naperville resident Kurt Kauper as Chief Revenue Officer and Chris Anello as Vice President of Finance. The plan is to hire another fifteen team members in sales, marketing, and software engineering.

The award-winning company is looking to become the leading SaaS project controls software company across North America, Europe, and Asia. The new global headquarters for the tech company is located at 55 Shuman Blvd., Suite 1050, Naperville, IL 60563.

About ARES PRISM Software

ARES PRISM is enterprise project controls software that manages the complete project lifecycle delivering dependable forecasts, cost control, and performance measurement for large construction and infrastructure projects. PRISM Software is a scalable, robust, and intuitive system that harnesses industry best practices and integrates all aspects of the project, including cost and schedule, change management, cost and carbon estimating, earned value, contracts & procurement, and field progressing. Its smart business intelligence reports and dashboards provide organizations with the transparency required to pinpoint potential problems and make strategic decisions. Learn more at aresprism.com.
