

Awl India Ventures to Turn Bengaluru'S Makrali Into a Logistics Hub

The Logistics Company has Set Up 85,000 Square Feet Area for Logistics & Warehousing in Bengaluru

Bengaluru, Karnataka Mar 30, 2022 ([Issuewire.com](https://www.issuewire.com)) - In a mission to make premium warehousing services more accessible, AWL India aims to expand to a total area of 1 million square feet within 40+ distinct locations in the country this year. The company provides world-class warehouses equipped with premium amenities that help businesses carry out their supply chain operations more efficiently.

Motivated by Prime Minister Narendra Modi's plans to improve the overall logistics operations within the country by implementing policies like the Gati Shakti Master Plan, AWL India is making its own contribution to add to the national logistics and [warehousing infrastructure](#).

The company is identifying strategic locations within the nation, one of which is Bengaluru's Makrali. Bengaluru has a lot of unfulfilled demand for all-inclusive warehousing infrastructure, and AWL India is bringing its modern solutions to fill up this gap.

AWL India is providing digitally equipped, modern warehouse spaces that can hold valuable records and documents for countless businesses in Bangalore that are struggling to meet this simple requirement. AWL India's warehouses are perfect for keeping records in secure storage. Fitted with state-of-the-art vault storage, the warehouses make data handling with utmost security an easy task. The skilled warehouse personnel at AWL India also rely on technology like their own personalised digital dashboard, called [Chakshu](#), that helps them use their own actual infrastructure as efficiently as they can. By facilitating records management through strategic warehousing, AWL India seeks to make a positive difference in the way hundreds of businesses store their records.

The CEO of the company, Mr. Rahul Mehra states, "At AWL India, our workers identify the exact problem areas within businesses where our premium warehousing solutions can fit in to simplify data documentation and records management for global businesses".

Here are some of the areas that which using AWL India's world-class warehouses will help businesses improve-

- [Records Management](#)
- Secure Storage
- Document Digitization
- [Document Destruction](#)
- Vault Storage

The Director of the company, Ms. Lovely Mehra says, "As a forward-looking organisation with a clear vision, we have recognized the deprived locations that demand efficient [warehousing solutions](#). We are expanding to strategic locations that hold immense potential and taking our digitally backed modern warehousing solutions to resolve 21st-century business challenges with equally advanced solutions".

AWL India connects all metropolitan and emerging metros of the country through its expansive network of optimised logistics networks and is set to expand to global markets soon.
