

Bins 4 Less Has Affordable Residential & Commercial Dumpster Rentals in Southern California

La Puente, California Mar 14, 2022 ([IssueWire.com](https://www.issuewire.com)) - [Bins 4 Less](#) is a woman-owned company with over 20 years of experience in waste hauling and management. They have the skills to haul trash in different capacities for personal and professional endeavors.

Whether customers have a home renovation project or need to clean out a building they purchased for a new business, they need a dumpster to get rid of the debris.

Take time to seek out their services to help with residential or business projects. Here are some services they provide.

Commercial and Residential Buildings

Bins 4 Less believes that time is money. Someone may be moving out or cleaning up their property for a showing. They may want to remodel their bathroom or kitchen or update the flooring to get ready to market their home to a specific clientele.

Bins 4 Less provides prompt service and doesn't leave its customers on hold for any reason. They allow customers to reserve a dumpster for quick delivery at their property and removal when the customer's project is complete.

Depending on the material and type of project, they offer unique sizes, including 3-yard, 10-yard, 15-yard, 20-yard, 40-yard containers for general trash and light construction and renovation or 6-yard and 12-yard lowboys for heavy construction like concrete and dirt.

For example, renting a 3-yard dumpster works well for light household cleanup and renovation. This container handles household or office trash, wood, drywall, and metals.

A 12-yard dumpster, a lowboy, is ideal for construction debris and demolition. These containers can hold concrete, asphalt dirt, bricks, and rocks. With no weight capacity, these containers can fit a lot of concrete or dirt without worrying about additional costs.

A 40-yard dumpster is perfect for more extensive renovation projects, roofing, large office, warehouse, or household cleanups. Some materials accepted in this bin are large furniture, appliances, general trash, metal, stucco, and roofing materials. These containers work very well for both commercial and residential needs.

Easy Dumpster Rental Process

Bins 4 Less' process is as easy as 1, 2, 3. Customers call Bins 4 Less and tell them about their project. Bins 4 Less representatives can recommend ideal sizes to save time and money.

Bins 4 Less delivers the dumpster on the property when and where their customers need it. Dump the waste in the dumpster and give them a call after the job is done so they can take it away promptly.

They understand the value of delivering what their customers need to help them finish a project. Since

2001, they've serviced many cities in Los Angeles, Orange, San Bernardino, and Riverside Counties.

Getting a dumpster on-call can save headaches when moving out, cleaning out a business property, or getting rid of construction debris.

Call Bins 4 Less ahead of time to get the ideal dumpster for the project.
