New York, United States Apr 1, 2022 ([Issuewire.com](https://www.issuewire.com)) - Beautiful hair is one of the most desirable aspects in terms of appearance for both men and women. Conditions like hair loss, alopecia, baldness, and more can cause depression and low self-esteem in people. Bono Hair brings the perfect solutions for all these hair problems by offering a legitimate answer that actually works. The company manufactures and supplies both men's and women's [toupees](#) that are of excellent quality. The company has its own factory based in the coastal city of Qingdao, China. The company supplies to wholesalers, distributors, salon owners, hair replacement business owners, and more at competitive prices. Armed with a team of highly-skilled and experienced professionals, they are able to create the best quality hairpieces and human hair wigs for customers around the world.

The company is one of the leaders in the [men's toupee](#) business. The toupees created by Bono Hair are extremely comfortable to wear all day long. These wigs are extremely stylish and bring back confidence in the wearers. There are various types of toupees in different colors, designs, curls, and densities for all types of male baldness patterns. The company has a stock of more than 10,000 [men's hairpieces](#) in 35 different colors that can be dispatched within 24 hours and delivered in 3 to 5 working days. The clients can request a custom design for their orders in terms of hair density, color, base size, base design, and more. They also have lace hair and ultra-thin skin hair toupee in their collection. They have sales consultants that help the buyers select the best products for their clients.

Bono Hair has put the same amount of emphasis on manufacturing [women's wigs](#). The hair toppers are meant to add volume to thinning hair and extra length to the existing hair of the wearer. The hairpieces for women are also available in different colors, styles, lengths, and volumes. The company also makes

customized hair wigs as per the needs and requirements of the clients. They also make medical wigs that are extremely helpful for women going through chemotherapy, trichotillomania, or alopecia.

Bono Hair has its own factory so they are able to assure the quality of their products. As they have full control over the production, they are extremely efficient in delivering their products. There are over 80 skilled technicians working in the hairpiece department and more than 500 ventilation workers knotting 7,000+ pieces of stock and [custom hair systems](#) per month. They have extremely professional and resourceful customer support that responds to all the queries of the clients as quickly as possible.
