He is currently affiliated with Western Vascular Institute, tending to patients in the Payson and Mesa areas. His care philosophy is to take care of patients like they would want their kids' taken care of. He has been described by his patients as being

kind, compassionate, & honest.

Western Vascular Institute was founded in 2005 by Dr. Mitar Vranic. Their three conveniently located vein and vascular clinics house the most advanced & innovative surgery centers & diagnostic imaging capabilities for their valued patients. With many years of extensive vascular experience, their vascular surgeons are able to provide unparalleled diagnosis & management for all venous & vascular diseases as well as exceptional patient care.

With a passion for medicine and physics from a young age, Dr. Paolini completed his medical school training at Temple University in 1999 and thereafter moved to New Mexico to begin his residency in general surgery at the University of New Mexico Health Sciences Center. After completing his residency, he moved to Toledo, Ohio to complete a fellowship in vascular surgery at the prestigious Jobst Vascular Center. He quickly gained accolades as one of the most innovative and competent vascular surgeons in the area as well as being heavily invested in vascular surgery research and publications.

An authority in his field, the doctor is board-certified in both vascular surgery and general surgery by the American Board of Surgery (ABS). The ABS is an independent, non-profit organization located in Philadelphia, Pennsylvania, founded for the purpose of certifying surgeons who have met a defined standard of education, training, and knowledge.

Among his other roles, he can be found on staff at Dignity Health – St. Joseph’s Hospital and Medical Center, Banner Heart Hospital, Abrazo Arizona Heart Hospital, and Mountain Vista Medical Center.

Vascular surgery is a surgical subspecialty in which diseases of the vascular system, including the arteries, veins, and lymphatic circulation, are managed by medical therapy, minimally-invasive catheter procedures, and surgical reconstruction. A vascular surgeon diagnoses treat and manage conditions in the arteries and veins, also called the blood vessels. These specialists treat a range of health problems, from spider and varicose veins to life-threatening aneurysms, and can help patients manage chronic conditions throughout their lives.

Happily married, Dr. Paolini and his wife have two wonderful children.
