

Dynamic Group mourns the death of an Indian student in Ukraine

Ramps up measures to ensure the safe evacuation of stranded students from the war-torn nation.

New Delhi, Delhi Mar 1, 2022 ([Issuewire.com](https://www.issuewire.com)) - New Delhi, March 1: Earlier this morning, a 21-year-old medical student from Karnataka Naveen Shekharappa Gyanagoudar was killed in Russian shelling in Kharkiv, Ukraine.

Calling it an unfortunate incident, Varun Khosla, Chairman, Dynamic World Education Community (DWECC) said, "Dynamic Group deeply mourns the death of an Indian student and we offer our condolences to the bereaved family. The unforeseen death of a future doctor has left us in shambles. Let us not give up the fight for a better future through education, for a better future for us, just as Naveen would have wanted for his fellow Indians."

"Like everyone else, the news had almost caught us unawares, but with the help of our networks and partners, Dynamic Group swung into action to ensure a safe passage for Indian students in the troubled zone. At DWECC we have taken it upon ourselves to help students who were enrolled in Ukraine look at alternate avenues and countries to study," said Puja Saluja, Founder, DWECC.

She highlighted how her organization had assigned an academic counselor to help students deal with the crisis upon returning to India. "We are engaged in working out a plan so that these students have ample options to choose from institutes in European countries and also India if the student wishes to make a switchover for further studies," she added.

About Dynamic World Education Community?

Dynamic World Education Community provides end-to-end services to students wishing to Study
