

H808Beats Perspective On Music

California City, California Mar 26, 2022 ([Issuewire.com](https://www.issuewire.com)) - **H808Beats** in recent years through the world of music and his beats gives us his own perspective on what music means in the 21st century.

H808Beats is a **Greek music producer**, he was born on 03/01/1997 in Athens where he grew up. He started making music professionally at the age of 19. He talked to the people he had as role models (808 mafia) and realized that music is a way of expression. His producer name is inspired by them. At the beginning of 2017, he creates his youtube channel and starts collaborations with well-known producers and rappers. In the same year, he released his first album entitled “**The Undefined Collection**” while three years later he released his second album “**The Dark Chronicles Of H808Beats**”.

But his evolution does not stop here, he gives his first official interview to a well-known American blog titled **How to be a Successful Music Producer in 2020 (Secrets from Producers around the World)**” and gives the motivation to love music and others as he loves it.

He states that “**Music is subjective and everyone has a different taste, however, in my opinion,**

trap beats are characterized by heavy 808 bass, fast hi-hat rolls and snare rolls with a kind of repetitive melody, to leave room for the artist to write the lyrics “.

Shortly afterward he wrote his first book entitled “**How To Sell Your Beats On Instagram**” with results to become a source of **inspiration and mentor** to those who needed him. He becomes widely known and nothing stops him.

All this becomes the reason for the release of the beat entitled “ **Heavy Hard 808 Bass Trap Beat Instrumental Future Type Beat 2019 [Prod By H808Beats]** ” and since then many were the ones who asked for his songs for collaboration.

Most of them became known on SoundCloud, such as “ **camoVee — I'm A Rap Lord** ”, “ **CamoVee — No Enemies** ”, “ **prevail** ” and many more.

Through his beats, the producer wants to state that the **difficulties in this field are many** and the competition is big. “**To be able to become successful, you have to have goals and confidence even in times when no one else would**”. I have lived a lot of such moments, but **I’m glad I never gave up**. “My source of inspiration is everything I have experienced and my music makes me what I am today.”

Even today H808 Beats has an upward trend and as he has told us we expect a lot more.
