Philadelphia, Pennsylvania Mar 12, 2022 ([Issuewire.com](https://www.issuewire.com)) - This Spring 2022 see the new commercial real estate investing course from [Hey Rich Girl](https://www.heyrichgirl.com). The new online course is packed with tips on how to invest in real estate (and live your best life)... without using your own money. It's sure to put a spring in your step.

This new [property investment course](#) covers everything from how to find lenders, buy buildings, and make passive income. Hey Rich Girl makes it so easy to learn even if you're starting from scratch and

have never bought a property before.

Hey Rich Girl was created out of a NEED. “I saw a need for women to learn how to invest, so I filled the gap by creating a community for girls to have a conversation about business,” remarked CEO, Cynthia Cuccuini. Cynthia is a 100% self-taught entrepreneur who grew up in an inner-city neighborhood. She began buying properties at the age of 24 after she lost her corporate America job.

“Losing a job is devastating,” Cuccuini remarked. “But, it ended up being a blessing because I was able to pursue my dream of real estate investing.” Over 10 years later and she’s living that dream!

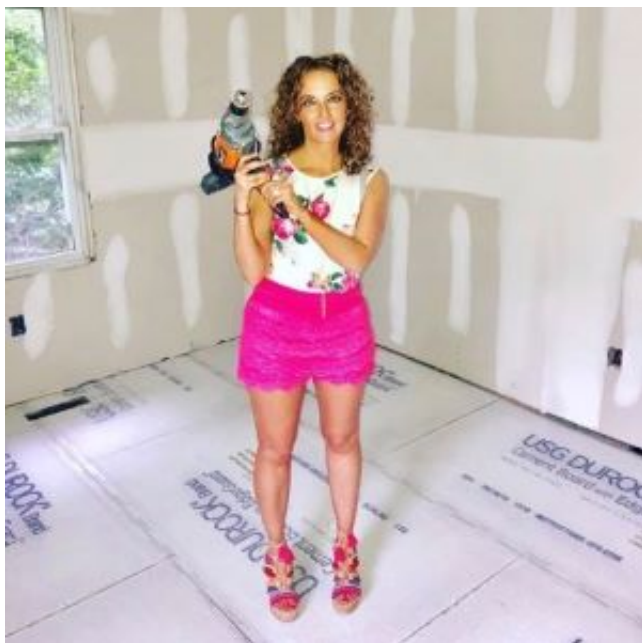

This unique commercial real estate investing course will show you how you can create the life of your dreams without wasting any time. It’s a step-by-step blueprint on how to buy buildings with a proven system.

Available for a limited time, the first 500 course attendees will also get the 2 bonuses. The Retirement Secrets of the Wealthy e-book is an action plan to increase your retirement portfolio with alternative investments (not stocks and bonds). Also, the Managing Properties guide provides tips on working with property managers.

Everyone is talking about flipping houses, but no one is talking about commercial real estate. Let’s get that conversation started with a course that teaches how to do it.

What’s more? You’ll also get access (yes, the direct phone number) to a lender that specializes in commercial real estate. “Business, in general, can be intimidating for women,” says Cynthia Cuccuini. “So we strive to make it a fun learning environment for both new and experienced investors.”
