

Indivision - Turtoise (Single)

RELEASE DATE: 6 May 2022

London, United Kingdom Mar 23, 2022 ([Issuewire.com](https://www.issuewire.com)) - Estonian drum & bass duo Indivision return to Ruff DNB with 'Turtoise'. Their first release on the label since October 2021's remix of 'Open Your Eyes', the track sees the two build upon their epic take on drum & bass, delivering a tune that features all of the bombastic melodies and rising bass patterns we've come to expect from the duo.

The track works equally as headphone music to get lost with or as a slice of jubilant, peak-time

dancefloor music designed to capture the minds of ravers. Press play on 'Turtle' and proceed to have your mind blown.

'Turtle' opens serenely. Gentle piano notes and light drums make up the introduction, the track unfurling into rushing pad arrangements and mellifluous vocal samples. The drop is a smooth transition. The vocal sample carries on, soaring over glimmering melodies, a driving rhythm section, and synth sounds that modulate subtly in the mix. The feeling is euphoric. Indivision takes us on a journey to the highest peaks, his mixture of melody, drums, and bass combining like a burst of cool air to the face.

Turtle' will land on all digital platforms on 6th May.
