

Innovative Watts Solo Chainsaw Mill Now Available Direct-to-Door in the U.S.

Nelson, New Zealand Mar 29, 2022 ([Issuewire.com](https://www.issuewire.com)) - For many years, people around the world in need of a chainsaw mill were limited in their choices. CNC Engineering has changed that with its [Watts Solo Chainsaw Mill](#). The company has created the most lightweight chainsaw mill available without compromising strength and durability.

The leader in the market for decades has been a [sawmill USA](#) model known for being used in the country's Alaskan wilderness under the harshest of conditions. First used in the Pacific Northwest area of the U.S., it was developed as an outgrowth of logging. The chainsaw mill developed by CNC Engineering features an innovative design and one-man operation that provides clean, even cuts on any terrain where it's set up, even hillsides.

The [chainsaw mill USA](#) is no longer the only choice for woodworkers, builders, and hobbyists. Individuals can't always bring the wood to the chainsaw mill. They must take the chainsaw mill to wherever the wood is growing in the wild. The Watts Solo Chainsaw Mill design enables it to be easily transported on the back of a truck or even by helicopter when needed without worrying about weight constraints.

Portability, durability, and ease of use are the hallmarks of the Watts Solo Chainsaw Mill. Available in sizes ranging from 20 to 60 inches, there's a [chainsaw mill](#) to accommodate multiple log widths and cutting depths for any requirement.

Its extreme portability enables individuals to slice through logs for any use without the need for a crew, even in locations that may be difficult to reach. It's equally applicable for use in the backyard or home shop. The chainsaw mill is designed to last, even with heavy usage.

The Watts Solo Chainsaw Mill by CNC Engineering is available worldwide. Individuals can purchase it online and it will be shipped directly to the buyer's address in the U.S. The key to any task is to work smart, not hard. The company's chainsaw mill enables individuals to accomplish that for a quicker turnaround time on the lumber needed by professionals or occasional users.
