

Leawo Celebrates Spring with Up to 60% OFF Blu-ray Copy and UHD Copy

Leawo Software recently launched their online sales to celebrate the upcoming 2022 Spring, including up to 91% off hot-selling bundles and singles, iTunes Video Converter freebie, and more.

Shenzhen, Guangdong Mar 9, 2022 (Issuewire.com) - As the end of winter doldrums, deals and discounts are starting to blossom. The gloomy season is practically over, and Spring break is just around the corner. This period is one of the best opportunities to grab great deals on vacation. Leawo Software, a company specialized in multimedia solutions and data management software, rolls out their [2022 Spring Giveaway & Specials](#) online sales to help people save on software for video, music, photo, Blu-ray, DVD, iOS device, etc. Until March 31st, 2022, participants can get up to 91% off hot-selling bundles and singles, and win [iTunes Video Converter](#) as a freebie.

With the blooming up of streaming services, Blu-ray seems to be dead. However, compared to streaming movies, Blu-rays always provide better image and audio quality for home theater. And for Blu-ray fans, Blu-ray is not dead, too. This Spring, to help those who still collect Blu-ray discs, Leawo Software specially offers up to 60% discount on their Blu-ray Copy and UHD Copy for Blu-ray and 4K UHD Blu-ray disc backup respectively. That is, in Leawo Spring sales, people can save up to \$119.94 for their favorite 4K Blu-ray/Blu-ray collections.

[Leawo Blu-ray Copy](#) is one of the best Blu-ray backup software, providing professional solutions to copy Blu-ray and DVD movies without quality loss. Equipped with advanced decryption technology, this software can remove protection upon Blu-rays and DVDs, regardless of AACs, BD+, CSS-DVD disc ranging from 0 to 6, or the latest MKB protection in region A, B, or C. In addition to 1:1 backing up Blu-ray/DVD discs, folder, and ISO image files to computer, blank disc, and hard drive in simple clicks, it can also compress Blu-ray content from BD100, BD66, BD50, and BD25 to DVD-9 and DVD-5. With a user-friendly interface, users can easily and freely select Blu-ray/DVD content to copy at 6x higher speed.

Literally, [Leawo UHD Copy](#) is the 4K Blu-ray counterpart to follow the footsteps of the 4K Ultra HD era. Powered by more advanced protection cracking technology, this software can [clone 4K UHD Blu-ray movies by removing the “unbreakable” AACs 2.0 protection](#). In terms of image quality, the HDR10, HDR10+, and Dolby Vision effects can be preserved perfectly, bringing people an unprecedented audio-visual experience. For 3D movie lovers, both Blu-ray Copy and UHD Copy can keep every element and effect of the original 3D movie.

Still, if some people stick to streaming services like iTunes Store, Leawo also offers their iTunes Video Converter for free in this event. Movies and TV shows downloaded from streaming services are known to be DRM-protected, which means people can't share downloaded content with their family and friends, or watch them offline if the subscription expires. In such circumstances, a DRM removal tool is necessary. As one of the best iTunes video converters, Leawo Prof. DRM Video Converter can convert iTunes DRM-protected M4V movies and TV shows to DRM-free MP4 files without quality loss. Now, for a limited time, people can get this powerful converter for free from the official page of Leawo Spring deals. After entering your name and email address, an email with a free registration code will be sent immediately.
