

Medix Recognized as Staffing Industry Leader in 2022

Chicago, Illinois Mar 2, 2022 ([Issuewire.com](https://www.issuewire.com)) - Medix, a national organization specialized in [workforce solutions](#) and recruiting skilled personnel for clients in the *Healthcare, Life Sciences, Engineering & Construction, and Technology* industries, has been recognized as a staffing industry leader in 2022. Medix has received high marks from key industry organizations, including Staffing Industry Analysts (SIA), ClearlyRated, and KLAS Research.

In terms of growth, SIA ranked the organization as one of the Largest U.S. Staffing Firms for the seventh consecutive year, noting it among other firms generating \$100 million or more in staffing revenue. From a client and employee experience perspective, Medix also stands apart as a recipient of ClearlyRated's 2022 Best of Staffing Client and Employee Awards, a designation reserved for fewer than two percent of

all staffing agencies in the U.S. and Canada. Winners of both of these awards are determined entirely by client and employee feedback.

Medix also offers award-winning services tailored to their industries of focus. Medix's rapidly expanding technology division was ranked among the top vendors in 2022 Best in KLAS Report, receiving high ratings in the Healthcare IT (HIT) Staffing and HIT Implementation Leadership categories for the second consecutive year. In healthcare, the organization was included on SIA's "Largest Healthcare Staffing Firms" and "Largest Allied Healthcare Staffing Firms" lists due to its wide-reaching impact in the healthcare industry.

"In our 20 years of business, we have developed a strong talent pipeline that gives us the unique ability to quickly connect our clients with the precise experienced professional for the position," said Andrew Limouris, President & CEO of Medix. "At the same time, the Medix team has kept its sights on the company's core purpose — to make a positive impact on the clients, talent, teammates, and communities we serve. Our momentum grew in 2021 and we anticipate the same in 2022, especially as the healthcare, life sciences, and technology fields continue to expand and companies increasingly seek advanced technical talent for digitization initiatives," said Limouris.
